Version II Pendant Control

Dear Skytron Distributors:

Starting October 1st, 2010, Skytron is pleased to announce the “Version II” pendant control. This pendant will replace the older analog pendants and early generation digital pendants. Version II pendants have a similar appearance to the newer units found on the 3600B and 6701 tables, although the cord will not be removable on every model. The pendants feature a backlit touch panel giving this pendant more functionality than the older analog version.

List price for this new pendant control will be \$2,400. The chrome hook and cord on certain versions will be available as individual replacement parts.

Rebuilds for **ALL** pendants will increase to \$1,200. In the near future parts will no longer be available for the older pendants and we will discontinue rebuilding them in June, 2011.

As an incentive to switch to the Version II pendant Skytron will offer a \$400 credit toward the new pendant with the return of an older unit. This offer will be available until June 30, 2011.

Version II Part numbers

MODEL PART NO.

6500NB	D5-032-46-2
6001NB	D5-031-65-2
6002B	D5-031-80-2
3500	D5-035-02-2
6500	D5-032-29-2
6500HD	D5-032-70-2
6002	D5-031-74-2
6001N	D5-031-63-2
6000N	D5-031-61-2
