

Multi-user Environment

(For moderate to heavy collaboration and file sharing)

UVA Health Storage Solutions

- ***O Drive***
 - General department folders
 - All medical center users map the O drive, but will only have access to specific folders through group membership.
 - Backups created and retained for 90 days
 - No snapshot available
 - Data replication
 - Not intended for patient data or very large storage, such as PACS systems.
 - Cost depends upon the department requesting storage. Quotas increase as needed.
 - Support provided by HIT: 24/7/365
- ***Y Drive***
 - Programs folders. Mostly houses small applications purchased by departments, or data stored from applications.
 - All medical center users map the Y drive but will only have access to specific folders through group membership.
 - Backups created and retained for 90 days
 - No snapshot available
 - Data replication
 - Not intended for patient data or very large storage, such as PACS systems.
 - Cost depends upon the department requesting storage. Quotas increase as needed.
 - Support provided by HIT: 24/7/365
- ***Z Drive***
 - Research share
 - Medical center users will only map this drive if they have group membership that provides access to a folder.
 - Backups created and retained for 90 days
 - No snapshot available
 - Data replication
 - Can contain patient data
 - Cost depends upon the department requesting storage. New folders must be approved by HIT.
 - Support provided by HIT: 24/7/365
